

Celebrating 20 years of
Unparalleled Experience and Engineering Excellence

"Globe Engineering Solutions is renowned across all industry sectors
for delivering comprehensive solutions
from Sheet Metal Fabrication to precise Engineering Components".

Globe Overview. Strength. Facilities.

Unparalleled Experience and Engineering Excellence

Since its inception in 2005, Globe Engineering has been primarily involved in the production and supply of sheet metal fabrication components and a diverse range of engineering products and solutions. Our offerings extend to meticulously crafted fire doors, robust steel doors, and state-of-the-art clean room doors, catering to the exacting standards of industries across the spectrum.

Utilizing state-of-the-art advanced CNC machining technology, Globe Engineering, has become a leading market leader in South India, providing high-precision engineering components, products and bespoke steel doors across various industry sectors.

Globe Engineering aim to provide exceptional value to our customers through reliable products, superior customer service, and innovative solutions that meet the evolving needs of the industry. By fostering strong client relationships and continuously improving our offerings, we strive for sustained growth and success in the market.

KEY Highlights

- ★ 20 +
Celebrating 20 years of Engineering Excellence
- ★ 24,000 sq.ft
Best-in-class infrastructure with state-of-the-art facilities
- ★ 15 + advanced machines
- ★ 60 + diversified clients across India
- ★ 100 + workforce team
- ★ 500 + range of products manufactured and delivered across India and overseas
- ★ ISO 9001 : 2015
- ★ CBRI
- ★ ISO 45001 : 2018
- ★ BFRC

Your Most Preferred CUTTING-EDGE-PARTNER for SHEET METAL and ENGINEERING COMPONENTS

Products We Manufacture

- ♦ Wind Energy Components / Sub Assembly Parts
- ♦ Control Valve Sheet Metal Brackets
- ♦ Tower Connecting Rods for Telecommunication
- ♦ Shim Plates and other Fabrication Items
- ♦ Control Rods, Thread Rods and Fabrication Items
- ♦ SS Trolley, MS Trolley, SS Crossover, SS Lifting Lug
- ♦ SS Mounting Brackets, Levers and Sun Shaders
- ♦ SS Brackets and Levers / SS Connecting Rod (Towers)
- ♦ Elevator Cabins and Components
- ♦ Automotive Parts / Railway Components
- ♦ Electrical Panel Enclosures / Paint Booth Panels
- ♦ Gratings / Platform / Cable Tray / Disc Panels
- ♦ Fabrication Work – Small & Medium
- ♦ Walkway Board / Fire Escape Stair Case
- ♦ Steel Doors / Fire Doors / CleanRoom Doors
- ♦ Acoustic Doors / Blast Doors / Shaft Doors / Door Hardware

Special Grade Materials Used:

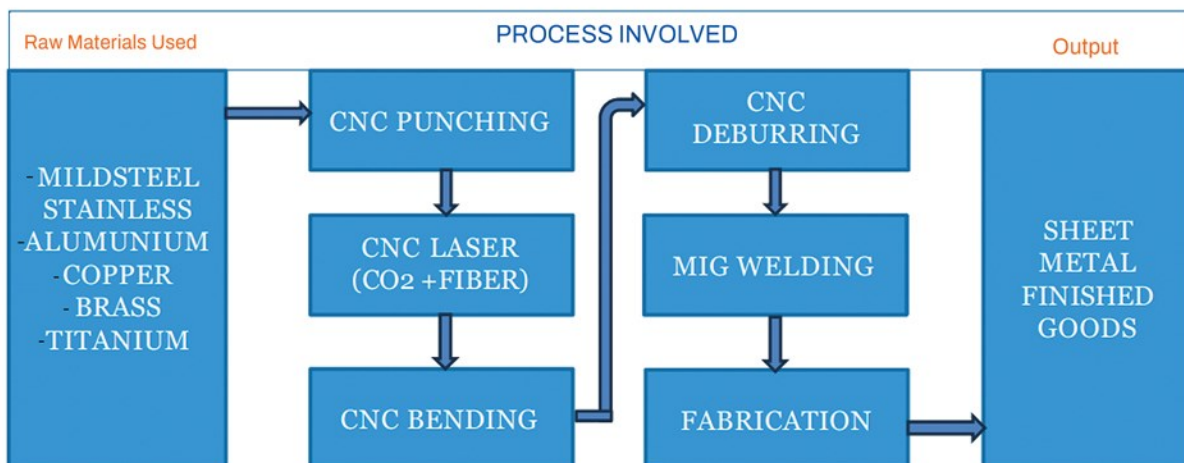

- ♦ Mild Steel (S 235, IS 2062, S 275, S 355, Hardox – 450 & 550)
- ♦ Stainless Steel (304, 316, 316L, 409, 439)
- ♦ Aluminium (11000, 3000 series, 5052 H32, 6061, 6063, 6081, 8011 H14)
- ♦ Galvanized Steel (Zero Spangle, 80 / 120 / 275 GSM)
- ♦ Copper ♦ Brass ♦ Titanium

Our Specialization

- ♦ CNC Laser Cutting
- ♦ CNC Bending
- ♦ CNC Milling
- ♦ Welding
- ♦ Powder Coating
- ♦ CNC Turret Punching
- ♦ CNC Turning
- ♦ Fabrication
- ♦ Assembly
- ♦ Painting

Process Involved:

- ♦ Product Design / Development (using software's > AutoCAD / Solid Works)
- ♦ CNC Laser Cutting (up to 4000 mm length and 2000 mm width and 25 mm thickness of MS, SS, Copper, Brass and Aluminum)
- ♦ CNC Punching (up to 3000 mm length and 1500 mm width and 6 mm thickness)
- ♦ CNC Bending (up to 4000 mm length and 8 mm thickness)
- ♦ Welding
- ♦ Fabrication: Light and Medium
- ♦ Plating, Anodizing, Alodine & Galvanizing
- ♦ Powder Coating & Painting
- ♦ Testing & Quality

Products Ranges

We offer a range of products tailored to meet the specific needs of our customers. These products are recognized for their reliability, durability, cost-effectiveness, and adherence to industry standards. We emphasize that our offerings are designed to meet high standards of quality and efficiency. A few of our products are listed below:

Crosser

Mounting Bracket

Corridor Support

Outer Hanger Plate

Bracket for Valve Assembly

Bottom Bracket

Rotating Joint Protection Coupling

Support Leg

Mounting Bracket

Tower Assembly

SS Enclosure Box

Guard for Gear Wheel

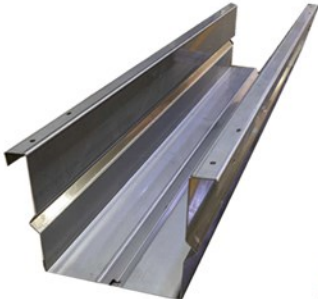

Steel Gratings

Cable Tray

Control Cabinet
(1500 mm x 1600 mm)

Casing for Stabilisation Chamber SK370

Stair Tread

Fire Escape Stair Case

Various Ranges of "U" Plates

Deburring

Heavy Slug Removal

Fine Finishing

Edge Rounding

SS Platform

Feedback Lever

EV Stator Core

Pressure Chamber

Hatch Floor Plate

Support for Spinner

Advanced Machines

Fiber Laser Cutting Machine, 4 x 2 Mtr
(TRUMPF 6 kw)

Fiber Laser Cutting Machine
(Trulaser 3.2 kw CO₂)

Fiber Laser Cutting Machine
(LVD 4 kw)

CNC Press Brake Machine
(LVD 320 ton 4 mtr)

CNC Turret Punching Machine
(Yawei)

CNC Turret Punching Machine
(Prima Power 3 mm)

CNC Press Brake
(Hindustan Hydraulics 110 TON)

CNC Press Brake
(JFY 100 TON)

CNC Press Brake
(AMADA 100 TON)

CNC Press Brake
(AMADA 200 TON)

CNC Deburring Machine (Timesaver)

Iron Worker (Durma 80 TON)

Horizontal Bending Machine
(Stierli-Bieger AG 70 MT)

Hydraulic Pipe Bending
Machine 60 TON

(LAG) Clinching
PEM Machine

Capacitor Discharged
Stud Welding Machine

MN DRO Machine

In-house Facilities

Nitrogen Generator

Welding Table

Stalker

Powder Coating & Painting

EOT Cranes

Stores

We are honored to collaborate with top-tier clients and professionals who trust in our brands. We are committed to maintaining these high-end services, cultivating long-term relationships with our valuable clients, and offering them stimulating challenges. We look forward to working together and delivering the best in the future.
